

Michigan School Psychological Clinic

Applied Behavior Analysis Therapy (ABA)

At the Michigan School Psychological Clinic, we offer ABA therapy services for preschool-aged children (2-5 years). Through collaboration with families, our therapists create meaningful behavior change programs centered on your child's immediate needs. Our therapy services are provided by student therapists, actively pursuing their Master's Degree in Clinical Psychology and/or a certification in ABA, under the direct supervision of a board-certified behavior analyst and a clinical psychologist.

Our early childhood development program is tailored to each child's unique needs. ABA therapy can target the following skills and more:

- Social Skills
- Rigidity in Routines
- Challenging Behaviors
- Communication
- Listener Responding
- School Readiness
- Toilet Training
- Play Skills
- Daily Living Skills

- No Wait List At Present
- Clinic Based Services
- Individualized Treatment Packages
- 1 on 1 Direct Therapy Services
- Supportive Caregiver Training
- Collaborative Care with Providers
- Dedicated Therapy Team
